sokari rentals

Sokari Weddings & Events is a boutique wedding rentals and styling studio designed for the modern bride with an eye for enduring beauty and understated sophistication. We are the visionaries and trusted guides behind your celebration, dedicated to curating romantic, unforgettable moments that stand the test of time.

The Design Narrative

Our aesthetic blends a modern perspective with classic wedding sensibilities, resulting in events that feel both refined and effortlessly stylish. With a holistic and thoughtful approach, we simplify the decor planning and design process, bringing clarity and cohesion to your vision. At Sokari, we're here to transform your love story into an artfully designed event, one that is deeply personal, beautifully curated, and remembered for a lifetime.

Floral Design Investment Guide & Aesthetic Overview

Thank you for considering our studio for your celebration. Planning this far in advance allows for incredible intentionality and the opportunity to truly refine your floral vision. This guide is designed to provide a transparent look at our process, pricing, and how we can bring your ceremony and reception to life.

Our Design Philosophy

We specialize in creating floral environments that feel organic, sophisticated, and deeply personal. Whether we are framing a ceremony with an architectural installation or accenting tables with delicate centerpieces, our goal is to enhance the natural beauty of your venue while reflecting your unique style.

faux florals

recent work

Whether you want the perfect ceremony florals (that can be repurposed in the reception) or a full floral design for the entire wedding, our faux florals are perfect...hello no wilting!

Estimated Investment Tiers

While every wedding is custom-quoted, the following ranges provide a baseline for your planning:

| Item | Investment Starting At | Details |
|----------------------|------------------------|----------------------------------------------------------------------|
| Bridal Bouquet | \$85 | Lush, hand-tied, and finished with premium silk ribbon. |
| Ceremony Focal Point | \$750 | Ground nests, asymmetrical arches, or pedestal arrangements. |
| Table Centerpieces | \$75/table | Designed in ceramic or glass vessels to complement your table scape. |
| Bud Vase Collections | \$55/table | Clusters of delicate stems for a minimalist, airy feel. |

The Planning Timeline

- Phase 1: Booking & Concept: Secure your date with a base proposal and deposit. We define the overall "vibe" and colour palette.
- Phase 2: Refinement: We finalize the specific item counts (number of tables, bouquets, etc.) based on your final guest list.
- Phase 3: Execution: Our team handles all delivery, on-site setup, and post-event strike.

Next Steps

Because dates are curated and limited, we recommend securing your date with a Base Proposal. This covers your essential "must-haves" like the ceremony florals and bouquet and ensures you are on our calendar. We can always scale up your reception needs as your guest count is finalized.

Please let us know if you would like to move forward with a custom base proposal!
